

Referring a Medicaid member to doula care

A public, no-PHI checklist for care coordinators, OB teams, FQHCs, WIC staff, and community programs.

Referral checklist

1	Confirm the member's Medicaid state and payer path in your own compliant system.
2	Use the official state program, plan, registry, or directory before naming a provider.
3	Tell the member to confirm the doula accepts the member's Medicaid plan before scheduling.
4	Keep names, IDs, dates of birth, service dates, and clinical notes out of public forms and shared links.

Plain-language script

You may be able to use Medicaid-covered doula support. Please confirm your plan, the doula's enrollment, and any referral or recommendation rules before scheduling.
